

Rebuild Superior, Inc.

165 W. Main Street, Superior, AZ 85173

Rebuild Superior, Inc. working for our town

Rebuild Superior, Inc. (**RSI**) is a non-profit started to help our town move forward.

RSI works with the Town of Superior, the Chamber of Commerce, the school system and all civic organizations to promote economic development and sustainability through business diversification. It seeks to increase income and reduce poverty through entrepreneurship and employment opportunities.

- Community blight, including abandoned commercial buildings and homes, as well as those needing repair and paint lowers the attractiveness of Superior to new business, tourists and residents. **RSI**, with the Chamber of Commerce, the Town government, local and external organizations, and volunteers are working now to improve Superior's appearance.
- Superior lacks sufficient commercial property options and homes. **RSI** will work with Superior and external organizations to make additional commercial properties and decent, affordable homes available, which will attract more business, tourists and new residents as well as make Superior nicer for those of us who live here.
- While Superior welcomes the opportunity the Resolution Copper project brings, the community does not want to suffer as it did when the Magma Mine closed. **RSI** is working with partners to help grow and diversify Superior's economy so as not to be dependent on one large employer.
- **RSI** will work with the Town, the Copper Corridor Economic Development Coalition and the Superior Unified School District on a workforce strategy that prepares local residents to qualify for projected employment and small business opportunities.

Rebuild Superior, Inc. started in mid-2015, became an **IRS** recognized non-profit in February 2016 and a **VISTA** (Volunteers in Service to America) member began work with **RSI** in June 2017.
